## Education Foundation celebrates success in supporting students

Over the past seven years, 54 Narrabri High School leavers have been helped along their vocational training and post school education pathways by the Narrabri Education Foundation.

Financial assistance from the Foundation is available to Narrabri students to help them meet the costs of learning, travel and accommodation as they set out on their careers.

The program is a major success. On Friday night, some of the recipients of Foundation funds gathered, with their families and members of the Foundation committee, community and Shire Council to

celebrate the success of the Foundation's program.

Foundation chairperson Jocellin Jansson welcomed guests to the event, among whom were representatives of Monsanto, major sponsors of the Education Foundation, and Rabobank, sponsors of a Leadership Skills program operated by the Country Education Foundation.

Several Foundation funds recipients were at the event and gave brief outlines of their progress through TAFE, university and vocational training which has been helped along with Foundation funds and encouragement.

Some of the recipients of Narrabri Education Foundation help, former Narrabri High School students Jess Craig, Zoe Saunders, Jock Spence, Kalinga Hulugalle and Thomas Watson, with Monsanto Technical Sales Agronomist Bob Ford, Narrabri and Cotton Business Development Manager, Gunnedah, Mark Dawson.
